

### Project Profile

Demolition of 2 Storey Office Block, including isolations, soft strip out, protection of Electrical Inlet and removal of entire structure.

#### Key Works Completed

##### Soft Strip of:

- All floor and ceiling finishes
- Partition walls
- M & E services
- Fixtures & Fittings
- WC Areas
- Joinery & Furniture

##### Demolition of:

- Roof
- 2 Storey Office Structure
- Slab
- Foundations

##### Retention of:

- Electrical Inlet by building a weatherproof brick enclosure.

#### Client Feedback:

‘Following the completion of the Stone House job I just wanted to drop you a line to personally thank you and your team for the professionalism and conduct shown by the guys when working on the job’

‘I hope this leads to more projects where I can work with your guys’

*Andy Tustin - Principal Health, Safety & Environment Manager - Willmott Dixon*

#### Client

Willmott Dixon Interiors Ltd

#### Programme & Cost

£45000.00 over 6 weeks.

#### Waste Removed

485 Tonnes with 100% recycled

#### Scaffolding

We installed a full Willmott Dixon branded monoflex Scaffold to the elevations of the building to reduce the risk of debris and dust encroaching on the public highway located adjacent to the building and this was coupled by tight water controls.

*“This project was completed on time and within budget which was made so much easier due to the collaborative approach to the works taken by the client and our Site Team”*
